

STORM-LOC

Triple 4 V-Groove Soffit

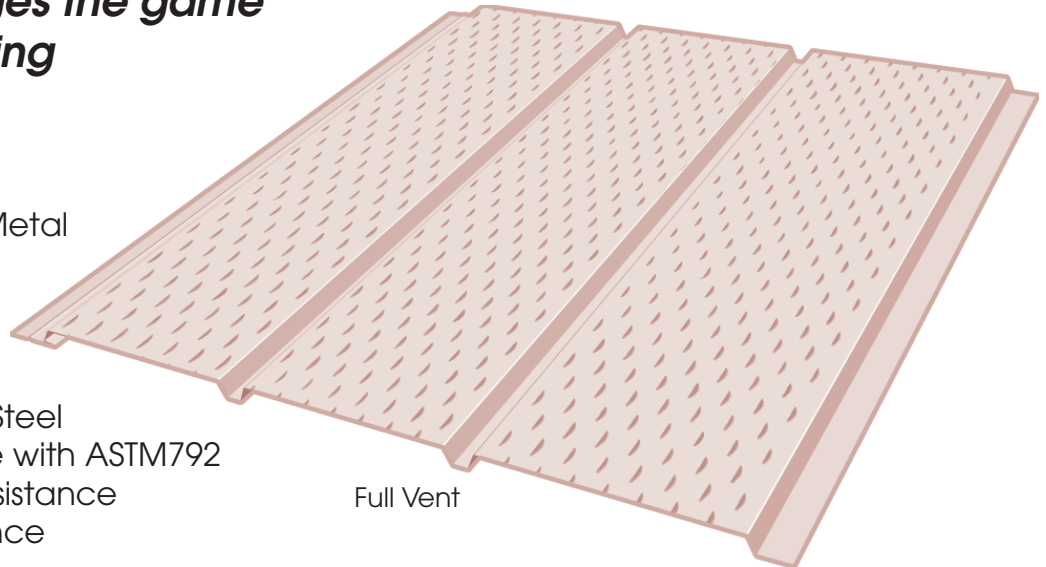

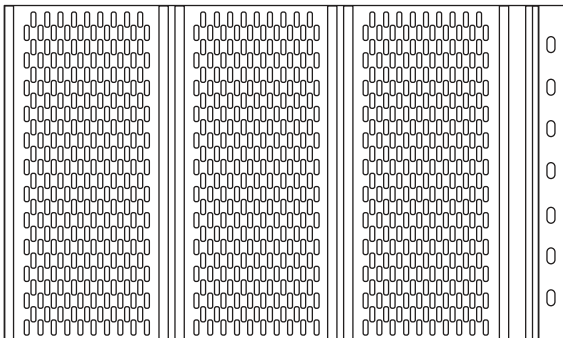

STORM-LOC changes the game
when it comes to doing
soffit on your project.

Specs:

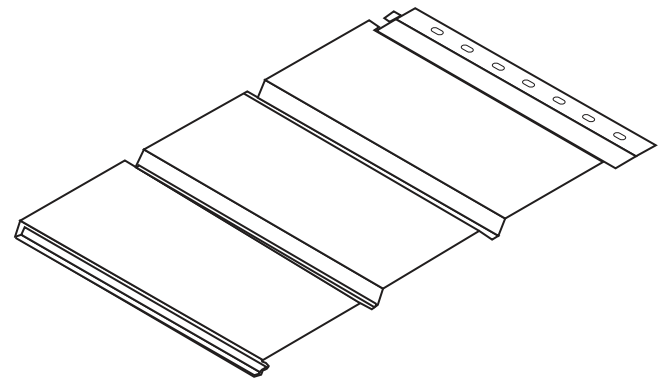

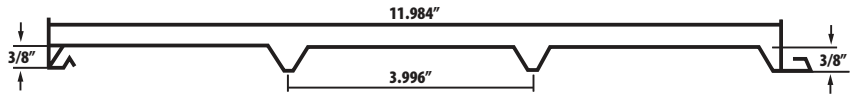

- Material: 26 & 28 Gauge Metal
- Warranty: 40 year Finish
- Panel Coverage: 12"
- 50,000 PSI Minimum yield
- AKZO NOBEL Paint System
- 26ga Grade 50 Structural Steel
- Produced in conformance with ASTM792
- UL 2218 Class 4 Impact Resistance
- UL 790 Class A Fire Resistance

Using the same coil as your roof panels you get the freedom from typical painting, maintenance and repair. This soffit panel's V-Groove design will enhance any building appearance and add value. Save time and money by ordering your soffit precut to size.

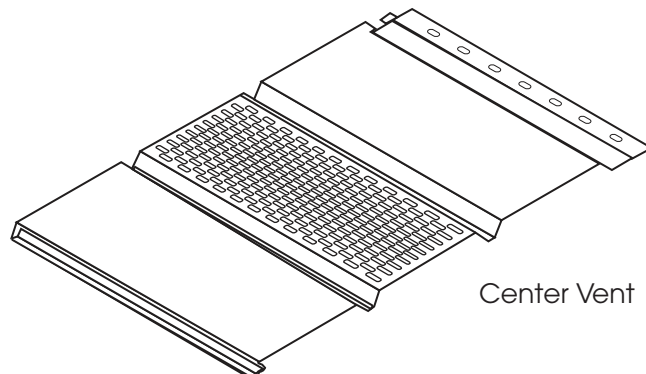

STORM-LOC soffit
is available in all 33 colors
including Frost & Wood Grain.

Standing Seam

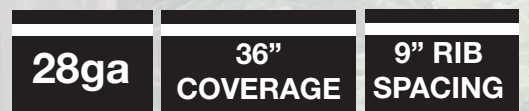

Willow-Loc allows you to have a beautiful roof without exposed fasteners. It is ideal for residential and light commercial applications.

Quad Rib

Quad Rib allows you to get that standing seam look without the cost. Ideal for residential and AG. Installs quickly with a clean look

Tuff Rib

Tuff Rib is the most common panel used in residential and AG applications with years of proven performance.

Whatever panel you choose, rest assured with an Akzo Nobel paint system and a thicker panel than the industry standard. You will be protected for years to come.

- In stock - white liner panel also available. Also available, touch-up paint, color matched fasteners and snow retention.
- * The lower the number, the thicker the steel, industry standard is 29 ga.
